FINGER IN THE NOSE INTRODUCES FINGER DENIM INAUGURAL COLLECTION

FINGER IN THE NOSE was born in 2003, with a single-product collection : an iconic pair of jeans. Since then denim has been the trademark of the brand's identity and a unique expertise.

After 18 years, we are glad to announce the creation of FINGER DENIM, a spin-off brand dedicated to a complete line of timeless denim products, our «New American classics».

From our historic fits to new cuts, the collection features 13 different models of jeans - straight, loose, skinny, slim, high waisted, flared or slouchy - but also a range of other denim essentials such as jackets, shirts, bermudas and overalls. The line is mostly unisex, and is declined in a variety of tones : blues, blacks, raw ecru.

Finally, this 18th birthday offers the opportunity to change our sizing system to include young adults. We have dedicated them a small collection of ultra basic white T-shirts, tank tops and polos, made from organic cotton, meant to complete the new FINGER DENIM line.

These changes reflect the way FINGER IN THE NOSE is constantly evolving throughout the years, while always preserving its unique fresh french spirit.
